High efficient PUR/PIR insulation elements and tailor-made building elements for residential, commercial or industrial buildings

- LINITHERM insulation systems made of PUR/PIR-rigid foam for roofs, ceilings, walls and floors
- LITEC Building systems – tailor-made, prefabricated elements for walls, roofs and dormers
- LINIT Panels – compound elements for modern facades, wall dividing elements, door fillings, for cooling, ventilation or drying construction
- LINIREC construction board – made of recycled PUR/PIR-rigid foam for a thermal separation in constructions, for durable detailed solutions for pitched or flat roofs

railway station Bad Wurzach

tasks

- complete refurbishment to a Energy efficient building (Effizienzhaus 100)
- the investors were keen on preserving the testimonies of old world craftsmanship of the building like
 - timber-frame construction
 - profiled purlin endings
 - arched windows
 - historical clapboard facade
